### **INDEPENDENT AUDITOR'S REPORT**

To the Board of Trustees of the SEIU Affiliates Officers and Employees Pension Plan - United States

#### Opinion

We have audited the accompanying financial statements of SEIU Affiliates Officers and Employees Pension Plan - United States (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022 and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of December 31, 2022, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

#### **Other Supplemental Information**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedules of administrative expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2023 AND 2022

### NOTE 1. DESCRIPTION OF THE PLAN

The following description of the SEIU Affiliates Officers and Employees Pension Plan - United States (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General** - The Plan is a defined benefit pension plan that covers employees of SEIU local unions and related organizations that have been approved for participation. Employees earning salaries of at least \$4,000 per year are covered. Benefits are based on age, accrued service and average salary during the highest 36 consecutive months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In accordance with the Pension Protection Act for 2006 (PPA), the actuaries declared the Plan not to be in critical or endangered status at December 31, 2023.

**Pension Benefits** - For participants who are currently employed or have terminated participation after January 1, 1986, vesting requires three years of current service or vesting service; or 15 years of service credit with at least one year of current service. For vested participants active as of January 1, 1999, the normal pension is a monthly benefit equal to 2.5% of final average compensation times years of service credit. Early, disability and survivor benefits are also provided. Please refer to the Plan document for more details regarding benefits provided by the Plan.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Method of Accounting** - The financial statements have been prepared using the accrual basis of accounting. Under this basis, revenue is recognized when earned and expenses are recognized when incurred.

**Investment Valuation and Income Recognition** - The fair value of the Plan's interest in the SEIU Pension Plans Master Trust Account is based on the beginning of the year value of the Plan's interest in the trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Investments in the SEIU Pension Plans Master Trust Account are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees (the Trustees) determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 6 for a discussion of fair value measurements. Purchases and sales of securities are recognized on a trade-date basis. Interest income is reported on

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

the accrual basis. Dividends are recognized on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Employer Contributions** - Contributions receivable are stated at the amount management expects to collect from balances outstanding at year end. Based on a review of historical losses, current economic conditions and supportable and reasonable forecast assumptions, management has concluded that any expected credit losses on balances outstanding at year end will be immaterial. No allowance for credit losses is considered necessary.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

**Withdrawal Liability** - The Plan assesses withdrawal liability to employers who have withdrawn from the Plan in accordance with Plan provisions and related regulations. Amounts assessed as withdrawal liability contributions are recorded as receivable when collection of the assessment appears reasonably certain. Once the receivable is recorded, a portion of each payment received reduces the receivable and a portion is recorded as interest income on withdrawal liability contributions. The payment status of each employer is reviewed annually by the Plan's legal counsel and an allowance for credit losses is recorded if warranted. At December 31, 2023 and 2022, withdrawal liability contributions of \$-0- and 252,407, respectively, were recorded as a receivable. An allowance for credit losses was not deemed necessary for the years ended December 31, 2023 and 2022.

Administrative Expenses - Administrative expenses are paid by the Plan.

**Payment of Benefits** - Benefit payments to participants are recorded upon distribution.

**Reclassifications** - Certain items may have been reclassified from prior years financial statements for comparability purposes.

**New Accounting Pronouncement Adopted** - During the year ended December 31, 2023, the Plan adopted the provisions of Accounting Standards Update (ASU) 2016-13, *Financial Instruments* - *Credit Losses* (Topic 326). This ASU replaced the incurred loss methodology with an expected loss methodology that is referred as the current expected credit loss (CECL) methodology. The ASU requires nonprofit entities to immediately recognize the estimated expected credit losses over the life of a financial instrument, including employer contributions. The estimate of expected credit losses considers not only historical information, but also current and future economic conditions and events. The Plan adopted the ASU effective January 1, 2023. The impact of the adoption was not considered material to the financial statements and primarily resulted in additional disclosures.

### NOTE 3. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect; however, to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan assets to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

### NOTE 4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial valuations were made using the entry age normal actuarial cost method. The significant actuarial assumptions used in the valuations as of December 31, 2022 were:

- Termination rates The assumed rates of voluntary termination reflect anticipated experience for the Plan's membership. Varying termination percentages (20.00-5.36) at various termination ages (20-60).
- Retirement age assumptions weighted average assumed retirement age was 63 years.
- Net investment rate of return 7.00% per year.
- Administrative expenses \$1,995,000.

# NOTE 4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

- Healthy mortality rates 91.5% of the pri-2012 blue collar amount weighted mortality table (separate employee and annuitant tables) projected generationally with MP-2021 scale.
- Disabled mortality rates healthy life (annuitant) mortality, with ages set forward 10 years.

The above actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. The Plan's actuary has determined the Plan has met the minimum funding requirements of ERISA through December 31, 2022.

Since information on the accumulated plan benefits at December 31, 2023, and the changes therein for the year then ended are not included, the financial statements do not purport to present a complete presentation of the financial status of the Plan as of December 31, 2023, and the changes therein for the year then ended, but a presentation of only the net assets available for benefits and the changes therein as of and for the year ended December 31, 2023. The complete financial status of the Plan is presented as of December 31, 2022.

### NOTE 5. TAX STATUS

The Plan obtained its latest determination letter on July 10, 2013, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving that determination letter. However, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### NOTE 6. INVESTMENTS IN SEIU PENSION PLANS MASTER TRUST

The SEIU National Industry Pension Plan - United States, SEIU Affiliates Officers and Employees Pension Plan - United States, Pension Plan for Employees of the Service Employees International Union - United States, and the Pension Plan for Employees of the Service Employees International Union - United States (Canadian Segment) each contributed investment assets to a unitized combined investment account entitled SEIU Pension Plans Master Trust. Each of the four contributing pension plans has an undivided interest in the Master Trust.

The value of the Plan's interest in the SEIU Pension Plans Master Trust is based on the beginning of year value of the Plan's interest in the Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Plan's interest in the net assets of the Master Trust was 1,178,873.73 units (43.71235%) and 1,181,887.66 units (43.33778%) as of December 31, 2023 and 2022, respectively. Total investment income (including net appreciation (depreciation) in the fair value of investments) of the SEIU Pension Plans Master Trust is allocated to the individual plans based upon ending monthly balances invested in each plan.

The following table presents the assets of the SEIU Pension Plans Master Trust as of December 31, 2023 and 2022:

	Decembe	er 31, 2023	December 31, 2022			
	SEIU Pension Plans Master Trust Balances	Plan's Interest in SEIU Pension Plans Master Trust Balances	SEIU Pension Plans Master Trust Balances	Plan's Interest in SEIU Pension Plans Master Trust Balances		
Short-term investments	\$ 38,065,220	\$ 16,639,201	\$ 28,841,689	\$ 12,499,347		
U.S. Government and government agency obligations	110,620,331	48,354,744	78,388,198	33,971,704		
Corporate notes and bonds	82,636,723	36,122,452	74,493,338	32,283,758		
Common stocks	1,254,208,229	548,243,861	1,086,860,146	471,021,043		
Common collective trusts	829,117,310	362,426,640	822,838,216	356,599,804		
Insurance company pooled separate accounts	148,324,715	64,836,215	83,397,477	36,142,614		
Limited partnerships	735,381,293	321,452,427	663,886,034	287,713,459		
Other pooled funds	106,587,480	46,591,890	136,688,975	59,237,965		
Total investments at fair value	3,304,941,301	1,444,667,430	2,975,394,073	1,289,469,694		
Plus						
Accrued income	2,882,862	1,260,166	2,252,387	976,134		
Total	\$ 3,307,824,163	\$ 1,445,927,596	\$ 2,977,646,460	\$ 1,290,445,828		

The following are net appreciation (depreciation) in the fair value of investments and investment income for the SEIU Pension Plans Master Trust for the years ended December 31, 2023 and 2022:

	 2023	 2022
Net appreciation (depreciation) in fair value of investments	\$ 338,906,149	\$ (446,275,370)
Investment income	 29,983,477	 30,415,497
Total	\$ 368,889,626	\$ (415,859,873)

Accounting standards provide the framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include other significant observable inputs including:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability; and
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Trustees determine the fair value measurement policies and procedures, based on information provided by the Plan's custodian bank and investment advisors. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Short-term investments: Valued at amortized cost, which approximates value.

United States Government and government agency obligations: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate notes and bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2023 and 2022:

	Master T	rust Asse <sup>.</sup>	ts at Fair Vo	alue c	as of Decembe	r 31, 20	023

\*In accordance with Accounting Standards Codification, investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For the years ended December 31, 2023 and 2022, there were no sales of investments whose value has been determined using significant unobservable inputs (Level 3).

#### Fair Value of Investments that Calculate Net Asset Value

The following tables summarize investments measured at fair value based on NAV's per share as of December 31, 2023 and 2022.

December 31, 2023	Fair Value	Unfunded ommitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trusts	\$ 829,117,310	\$ -	Varies	Varies
Insurance company pooled				
separate account	148,324,715	-	Varies	Varies
Limited partnerships	735,381,293	91,425,634	Varies	Varies
Other pooled funds	 106,587,480	 -	Varies	Varies
Total	\$ 1,819,410,798	\$ 91,425,634		
	[ain)(al.e	Unfunded	Redemption Frequency	Redemption
December 31, 2022	 Fair Value	 ommitments	(if currently eligible)	Notice Period
Common collective trusts	\$ 822,838,216	\$ -	Varies	Varies
Insurance company pooled				
separate account	83,397,477	-	Varies	Varies
Limited partnerships	663,886,034	166,876,371	Varies	Varies
Other pooled funds	 136,688,975	 -	Varies	Varies
Total	\$ 1,706,810,702	\$ 166,876,371		

The investments in the common collective trust class are comprised of several investments. Underlying assets in these funds primarily include publicly traded equity securities and fixed income securities and are valued at their NAV calculated by the fund sponsor and have daily or monthly liquidity.

The investments in insurance company pooled separate accounts from insurance contracts seeks to capitalize on opportunities in the U.S. commercial real estate market through making loans to borrowers in connection with the acquisition, development or refinancing of commercial properties. This investment is valued based on the underlying portfolio of investments valued primarily through cash flow models and appraisals.

The investments in the limited partnerships class seek to achieve long term-growth of capital consistent with risk reduction through diversification. These investments are subject to various restrictions on redemption and frequency. The fair value of these investments is estimated based on the audited capital accounts and the Master Trust's respective ownership as reported by the investment manager.

The investment in the other pooled funds class is an investment in a manager that seeks to provide sound means to invest in a portfolio of high-quality, short-term construction loans secured by the projects being built. This investment is valued based on the underlying value of its portfolio.

## NOTE 7. FUNDING POLICY

Contributions to the Plan are actuarially determined utilizing the frozen entry age actuarial cost method. Funding of the Plan is provided by employer contributions at the rate of 21% of covered payroll of participants for the years ended December 31, 2023 and 2022.

#### NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

# NOTE 9. TRANSACTIONS WITH RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS

The Plan pays certain administrative, investment and professional fees to various service providers. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

The Plan was allocated its share of salaries, payroll taxes, employee benefits and other administrative expenses paid by the SEIU National Industry Pension Plan - United States, an organization related to the Plan through common trustees. The Plan's share of these expenses for the years ended December 31, 2023 and 2022 was \$1,350,802 and \$1,140,633, respectively.

The Plan charged the SEIU Affiliates Officers and Employees Pension Plan - Canada a portion of common administrative expenses based upon the number of active participants. These allocated expenses amounted to 8.00% for 2023 and 8.06% for 2022 of the allocated administrative expenses. For the years ended December 31, 2023 and 2022, the Plan allocated administrative expenses to the SEIU Affiliates Officers and Employees Pension Plan - Canada of \$93,181 and \$92,770, respectively.

# NOTE 9. TRANSACTIONS WITH RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS (CONTINUED)

At December 31, 2023 and 2022, the Plan had receivables from/payables to related parties as summarized below:

	 2023	 2022
Due from		
SEIU Affiliates Officers and Employees		
Pension Plan - Canada	\$ 110,878	\$ 115,817
Pension Plan for Employees of the Service		
Employees International Union - Canada	 -	 816
	\$ 110,878	\$ 116,633
Due to		
SEIU National Industry Pension Plan - United States	\$ 121,705	\$ 110,814

### NOTE 11. SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 19, 2024, which is the date the financial statements were available to be issued. This review and evaluation revealed no other material event or transaction which would require an adjustment to or disclosure in the accompanying financial statements.

## **Exhibit J: Summary of Plan Provisions**

## (Schedule MB, Line 6)

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Year	January 1 through December 31
Pension Credit Year	January 1 through December 31
Plan Status	Ongoing plan
Normal Pension	Age Requirement: 65
	<ul> <li>Service Requirement: 15 years of Service Credit with at least one year of Current Service; or three years of Current Service or Vesting Service; or the fifth anniversary of Plan participation.</li> </ul>
	<ul> <li>Amount: 2.5% of Final Average Compensation times years of service*. Former participants of the California State Employees Association Retirement Plan will receive their accrued benefit in that Plan as of June 1, 2010 if it has a greater present value.</li> </ul>
	<ul> <li>Final Average Compensation: Highest average using 36 consecutive months of compensation. Maximum annual compensation is \$330,000 for 2023 (\$305,000 for 2022).</li> </ul>
	• Maximum Annual Benefit: \$265,000 for 2023 (\$245,000 for 2022). Actuarially reduced for retirement before age 62.
	Delayed Retirement Amount: Actuarial increases in accordance with Plan provisions.
Early Retirement	Age Requirement: 55 (or 50 provided age plus service total 80 or more)
	<ul> <li>Service Requirement: 15 years of Service Credit with at least one year of Current Service; or 10 years of Current Service or Vesting Service.</li> </ul>
	• <i>Amount:</i> Normal Pension accrued reduced by 5% for each year of age less than 65. There is no reduction if age plus service total 80 or more.

SEIU Affiliates Officers and Employees Pension Plan Actuarial Valuation as of January 1, 2023 EIN 52-0812348/PN 001 PlanProvisions

<sup>\*</sup> Employees with common service under the SEIU Affiliates' Officers and Employees Pension Plan and the Pension Plan for Employees of the Service Employees International Union will have their respective benefits based on the percentage of their career spent in each Plan.

Disability	Age Requirement: None
	• Service Requirement: 15 years of Service Credit with at least one year of Current Service; or 10 years of Current Service or Vesting Service.
	• Amount: (1) Normal pension based on service accrued and final compensation at disability, payable immediately, or (2) for local unions with Long Term Disability Income Plan Benefits only - the Pension Plan will continue to credit service while the employee is disabled. When insurance payments cease, the employee will be entitled to a pension based on the total of actual service plus service credited during the period of disability and annual compensation at the time of disability increased by the percentage increase in the Consumer Price Index per year from the time of disability until the Disability Pension commences.
Vesting	Age Requirement: None
	Service Requirement: Three years of Vesting Service.
	Amount: Normal Pension accrued payable at age 65.
	Normal Retirement Age: 65
Spouse's Pre-	Age and Service Requirement: Eligible for an immediate or deferred vested pension.
Retirement Death Benefit	• <i>Amount:</i> 100% of the benefit the employee would have received had he or she retired the day before death and elected the joint and survivor option.
	• <i>Benefit Commencement:</i> First of the month following the death of the employee if the employee dies while eligible for an immediate pension. If the employee dies while eligible for a deferred pension, benefits commence on the first of the month the employee would have been eligible for a pension had he or she lived but earned no additional service, but no later than age 55. However, in all circumstances, the monthly benefit is payable to the surviving spouse for the first 24 months following the death of the employee, and for as long as any dependent children of the employee are under age 18.
Pre-Retirement Lump-	Age Requirement: None
sum Death Benefit (if not eligible for	Service Requirement: One year of Service Credit or Vesting Service
spouse's benefit)	• <i>Amount:</i> \$5,000 for less than five years of service; \$10,000 for five years of service or more; or 60 times monthly Normal Pension accrued, if greater.

Section 3: Cert	tificate of Actuarial Valuation					
<b>Post-Retirement Death</b> <b>Benefits</b> • Benefit: Benefits are payable for life with a guarantee that total benefits paid will equal 36 times the original No Pension accrued including early retirement reductions. All optional forms of payment include this guarantee.						
	• Joint and Survivor: For married participants, pension benefits are paid in the form of a joint and survivor annuity unless this form is rejected by the participant and spouse. If this form is not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If this form is rejected, or if the participant is not married, benefits are payable for the life of the participant, or in any other available optional form elected by the participant in an actuarially equivalent amount. No death benefits shall be payable other than those provided under the optional methods elected.					
Optional Forms of Benefits	Single Life Annuity with 5 or 10 years certain					
Denents	Joint and 50% Survivor Annuity					
	Joint and 75% Survivor Annuity					
	Joint and 100% Survivor Annuity					
	Level Income Annuity					
	A participant can elect to receive between 5% and 30% of their benefit as a lump sum					
Cost-of-Living Adjustments	Monthly payments to all pensioners and beneficiaries are increased 1.5% each January for all pensions in payment status for at least six months. Participants who retired under the provisions of the CSEA Retirement Plan receive an increase each April equal to California CPI, up to a maximum of 2.5% per year. The California CPI is equal to the average of the annual CPI for the Los Angeles-Long Beach area and the annual CPI for the San Francisco-Oakland area published by the Bureau of Labor Statistics of the United States Department of Labor.					
Participation	On the first day of the month after 12 consecutive months of employment during which at least \$4,000 in compensation was earned					
Years of Service	One month of service credit granted for each month employee earned any compensation					
Past Service	Continuous service from date of hire to October 1, 1964 (if employer entered on that date), or prior service granted by the Trustees					
Current Service	Years of Service for which contributions are received or for which an employer is obligated to contribute					
Vesting Service	One year of Vesting Service granted for any calendar year in which the participant earns compensation during any five months					
Service Credit	Sum of Current Service and Past Service					
Employer Contributions	21% of covered payroll

## Schedule of FSA Bases (Credits) (Schedule MB, Line 9h)

\$52,655,872

Justification for Change in Actuarial Assumptions (Schedule MB, line 11)	a change in the of IRC Section with IRS Regu Based on past Annual admini PRI-2012 Blue Mortality project Assumed max	of determining current liability, the current liability interest rate was changed from 2.22% to 2.55% due to the permissible range and recognizing that any rate within the permissible range satisfies the requirements in 431(c)(6)(E) and the mortality tables and mortality improvement scales were changed in accordance ulations 1.431(c)(6)-1 and 1.430(h)(3)-1. t experience and future expectations, the following actuarial assumptions were changed: istrative expenses, payable as of the beginning of the year, previously \$1,815,000. e Collar amount-weighted mortality table adjustment factor, previously 93.7%. ection scale, previously MP-2019. kimum age for inactive vested participants, previously 80. centage of pensioners electing a 25% partial lump sum, previously 12%.						
		•	•	•	sly 12%.			
	Retirement rat	Retirement rates from active status, previously the rates shown below.						
		Age	Eligible for Unreduced Benefit	Eligible for Reduced Benefit				
		50 – 54	12.0%	N/A				
		55	15.0	2.0%	-			
		56 – 59	9.0	2.0	-			
		60 – 61	17.0	5.0	-			
		62	17.0	12.0				
		63 – 64	17.0	10.0				
		65 – 67	20.0	20.0				
		68	18.0	18.0				
		69	23.0	23.0				
		70	100.0	100.0				

Method Change

The funding method was changed from Entry Age Normal to Projected Unit Credit per IRS Revenue Procedure 2000-40 Approval 1 (using projected compensation).

## **Exhibit I: Statement of Actuarial Assumptions, Methods, and Models**

(Schedule MB, Line 6)

Mortality Rates	<i>Healthy</i> : 91.5% of the Pri-2012 Blue Collar Amount Weighted Mortality Table (separate employee and annuitant tables) projected generationally with MP-2021 scale
	Disabled: Healthy life (annuitant) mortality, with ages set forward 10 years
	The Pri-2012 Blue Collar amount weighted tables (with ages set forward for disabled lives and the 91.5% factor) and generational projection to the valuation date reasonably reflect the mortality experience of the Plan as of the measurement date.
	These mortality tables were then adjusted to future years using a generational projection to reflect future mortality improvement between the measurement date and those years.
	The mortality rates were based on historical and current demographic data, adjusted to reflect health characteristics of the industry, and estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of deaths by age and the projected number based on the prior years' assumption over the most recent ten years, taking into consideration the results of Segal's 2020 industry mortality study.

#### **Termination Rates**

Rate (%)					
Disability	Withdrawal				
0.02	20.00				
0.02	20.00				
0.03	18.22				
0.04	12.60				
0.06	10.26				
0.09	8.62				
0.15	7.18				
0.25	6.27				
0.41	5.36				
	Disability 0.02 0.02 0.03 0.04 0.06 0.09 0.15 0.25				

The assumed rates of withdrawal shown above apply to employees with three or more years of service. For employees with less than three years of service, the assumed withdrawal rates are as follows:

Years of Service	Rate (%)
Less than 1	30
Between 1 and 2	23
Between 2 and 3	20

The termination rates and disability rates were based on historical and current demographic data, estimated future experience, and professional judgment. As part of the analysis, a comparison was made between the actual number of terminations and disability retirements by age and the projected number based on the prior years' assumption over the most recent five years.

## Retirement Rates for Active Participants

Active Participants		Age	Eligible for Unreduced Benefit	Eligible for Reduced Benefit			
		50 – 54	12.0%	N/A	-		
		55	15.0	2.0%			
		56 – 59	9.0	2.0			
		60 – 61	13.0	5.0	_		
		62	17.0	12.0			
		63 – 64	17.0	10.0	_		
		65	20.0	20.0			
		66 – 69	18.0	18.0			
		70	100.0	100.0			
	The retirement rates were based on historical and current demographic data, estimated future experience, and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior years' assumption over the most recent five years.						
Description of Weighted Average Retirement Age	Age 63, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in this valuation.						
Retirement Rates for Inactive Vested Participants	<ul> <li>5.5% at the age when first eligible to retire, 5.5% each year thereafter, and 100% at age when first eligible for an unreduced benefit.</li> <li>The retirement rates for inactive vested participants were based on historical and current demographic data, estimated future experience, and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior years' assumption over the most recent five years.</li> </ul>						
Retirement Age for CSEA Inactive Vested Participants (at merger)	Age 63						

Salary Scale	Annual increas	ses of 2.75% pl	us an additional amount va	rying by age. Sample rates of increase are as follows:	
		Age	Annual Increase		
		20	12.7%		
		25	10.6		
		30	8.6		
		35	7.4		
		40	6.3		
		45	5.8		
		50	5.7		
		55	5.0		
		60	3.3		
		65+	2.8		
	experience an	d professional j		ent demographic data, adjusted to reflect estimated future alysis, a comparison was made between the assumed and th e years.	
Assumed Cost of Living Increase for CSEA Retirement Benefits	2.5% per year (for CSEA retirees receiving a CSEA benefit and for terminated vested participants whose accrued CSEA Plan benefit is greater than their accrued Affiliates Plan benefit)				
Future Benefit Accruals	One service credit per year per active employee included in the valuation				
Unknown Data for Participants	Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be female.				
Definition of Active Participants	All active employees as of the valuation date				
Exclusion of Inactive Vested Participants	Inactive participants over age 85 are excluded from the valuation. In addition, records identified as unconfirmed deaths or deaths with survivor benefits payable, but on hold who are over age 85 are also excluded from the valuation. The exclusion of these participants over age 85 is based on historical and current demographic data, estimated future experience, and professional judgement. As part of the analysis, the ages of new retirees from inactive vested status were reviewed.				
Percent Married	62% of males	and 35% of fem	nales		

Age of Spouse	Females 3 years younger than males			
Benefit Election	Non-married participants are assumed to elect the single life annuity with three years certain form of payment. Married participants are assumed to elect the 50% Spousal Pension with three years certain form of payment. Additionally, 16% of future retirees are assumed to receive 25% of the value of their benefit as a lump sum payable at retirement. Lump sums are determined using an interest rate of 4.0% and the mortality table mandated by PPA'06. The benefit elections were based on historical and current demographic data, adjusted to reflect the plan design, estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual option election patterns over the most recent five years.			
Eligibility for Delayed Retirement Factors	Inactive vested participants after attaining age 65			
Net Investment Return	7.00% The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes, as well as the Plan's target asset allocation.			
Annual Administrative Expenses	\$1,995,000, payable as of the beginning of the year, for the year beginning January 1, 2023 The annual administrative expenses were based on historical and current data, adjusted to reflect estimated future experience and professional judgment.			
Actuarial Value of Assets	IRS Method 16 (Rev. Proc. 2000-40). The market value of assets less unrecognized returns in each of the last five years, where the five-year period is phased-in and actuarial value equals market value in the first year (January 1, 2022). Unrecognized return is equal to the difference between the actual market return and the projected market return (at the assumed rate of return) and is recognized over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value. The Trustees adopted this method effective January 1, 2022. Therefore, the asset method cannot be changed again until the January 1, 2028, actuarial valuation.			
Actuarial Cost Method	Projected Unit Credit. IRS Approval 1 from Revenue Procedure 2000-40, where the projected benefit is calculated using projected compensation.			
Benefits Valued	Unless otherwise indicated, includes all benefits summarized in Exhibit J.			
Current Liability Assumptions	<i>Interest:</i> 2.55%, within the permissible range prescribed under IRC Section 431(c)(6)(E) <i>Mortality:</i> Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1(a)(2): RP-2014 employee and annuitant mortality tables, adjusted backward to the base year (2006) using scale MP-2014, projected forward generationally using scale MP-2021 (previously, the MP-2020 scale was used).			
Estimated Rate of Investment Return	On actuarial value of assets (Schedule MB, line 6g): 3.2%, for the Plan Year ending December 31, 2022 On current (market) value of assets (Schedule MB, line 6h): -12.1%, for the Plan Year ending December 31, 2022			

# Section 3: Certificate of Actuarial Valuation

FSA Contribution Timing (Schedule MB, line 3a)	Unless otherwise noted, contributions are paid periodically throughout the year. The interest credited in the FSA is therefore assumed to be equivalent to a July 15 contribution date.
Actuarial Models	Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are prepared to meet regulatory, legislative and client requirements. Deterministic cost projections are based on a proprietary forecasting model. Our Actuarial Technology and Systems unit, comprised of both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible Enrolled Actuary.

# Section 3: Certificate of Actuarial Valuation

<b>Justification for</b> <b>Change in Actuarial</b> <b>Assumptions</b> For purposes of determining current liability, the current liability interest rate was changed from 2.22% to 2.55% due a change in the permissible range and recognizing that any rate within the permissible range satisfies the requirement of IRC Section 431(c)(6)(E) and the mortality tables and mortality improvement scales were changed in accordance	ustification for
(Schedule MB, line 11) with IRS Regulations $1.431(c)(6)-1$ and $1.430(h)(3)-1$ .	hange in Actuarial ssumptions
Based on past experience and future expectations, the following actuarial assumptions were changed:	, ,
Annual administrative expenses, payable as of the beginning of the year, previously \$1,815,000.	
PRI-2012 Blue Collar amount-weighted mortality table adjustment factor, previously 93.7%.	
Mortality projection scale, previously MP-2019.	
Assumed maximum age for inactive vested participants, previously 80.	
Assumed percentage of pensioners electing a 25% partial lump sum, previously 12%.	
Retirement rates from active status, previously the rates shown below.	
Eligible for Eligible for	
Age Unreduced Benefit Reduced Benefit	
50-54 12.0% N/A	
55 15.0 2.0%	
56-59 9.0 2.0	
60-61 17.0 5.0	
62 17.0 12.0	
63-64 17.0 10.0	
65-67 20.0 20.0	
68 18.0 18.0	
6923.023.0	
70 100.0 100.0	

Method Change

The funding method was changed from Entry Age Normal to Projected Unit Credit per IRS Revenue Procedure 2000-40 Approval 1 (using projected compensation).

## Section 2: Actuarial Valuation Results

### Withdrawal liability assumptions

• The present value of vested benefits is based on a blend of two liability calculations. The first calculation uses discount rates selected based on estimated annuity purchase rates available for benefits being settled, because withdrawal liability is a final settlement of an employer's obligation to the Plan. The second calculation uses the interest rate determined by the plan actuary for minimum funding, based on the expected return on current and future assets. For benefits that could be settled immediately, because assets on hand are sufficient, the first calculation is used: annuity purchase rates promulgated by PBGC under ERISA Sec. 4044 for multiemployer plans terminating by mass withdrawal on the measurement date. For benefits that cannot be settled immediately because they are not currently funded, the calculation uses the second calculation: the interest rate used for plan funding calculations.

Interest For liabilities up to market value of assets, 3.90% for 20 years and 3.65% beyond. For liabilities in excess of market value of assets, same as used for plan funding as of January 1, 2023.

### Schedule MB, Line 8b(1) - Schedule of Projection of Expected Benefit Payments

Plan Year	Active Participants	Terminated Vested Participants	Retired Participants and Beneficiaries	Total
2023	\$7,086,553	\$11,491,525	\$66,469,835	\$85,047,913
2024	9,536,951	9,886,213	66,144,005	85,567,169
2025	12,722,844	10,667,764	65,646,431	89,037,039

2027	19,097,416	12,445,135	64,354,351	95,896,902
2028	22,169,655	13,722,903	63,531,285	99,423,843
2029	24,996,767	14,696,051	62,585,986	102,278,804
2030	27,759,356	15,416,377	61,498,725	104,674,458
2031	30,462,393	16,501,972	60,259,885	107,224,250
2032	33,081,209	17,196,530	58,893,366	109,171,105
2033	35,508,215	18,582,585	57,386,613	111,477,413
2034	37,989,596	19,593,446	55,733,977	113,317,019
2035	40,247,341	20,662,862	53,936,191	114,846,394
2036	42,448,293	21,670,668	51,996,277	116,115,238
2037	44,387,151	22,627,007	49,920,246	116,934,404
2038	46,245,284	23,631,133	47,716,995	117,593,412
2039	47,899,770	24,242,623	45,398,399	117,540,792
2040	49,310,585	25,360,515	42,979,505	117,650,605

This assumes the following:

- No additional benefits will be accrued.
- Experience is in line with valuation assumptions.
- No new entrants are covered by the Plan.
- Benefits are paid in the form assumed with valuation.
